PROJECTS

Attendance Reporting and Chat App (Capstone Project)

September 2022- April 2023

Centennial College

- Created an Android mobile app using Kotlin, Firebase, and Google OAuth2.
- Simplified attendance reporting and enabled messaging between teachers and parents.

Motorbike Inventory App

May 2023 - June 2023

Centennial College

- Designed an Android mobile app for motorbike inventory management.
- Implemented CRUD functionality and allowed users to create a digital garage for their motorcycles.
- Built using Java, Firebase, and MVVM architecture.

Patient Health Tracker

February 2023 – April 2023

Centennial College

- Developed a web application for monitoring and predicting a patient's health condition.
- Utilized React, MongoDB, GraphQL, Python, and Flask.

Number Recognizer ML

March 2023- April 2023

Centennial College

- Built a machine learning model capable of predicting numbers from uploaded images.
- Constructed using Python and Flask.

EXPERIENCE

Sales Associate

Walmart, Scarborough, ON, Canada

Sept. 2017 – May 2018, May 2019- Present

- Collaborated with a team to execute store merchandising strategies, resulting in increased product visibility and sales.
- Demonstrated exceptional customer service skills, fostering positive relationships with customers, and maintaining high levels of customer satisfaction.
- Resolved customer complaints promptly and effectively through active listening and problem-solving techniques.
